

Chase the Lion

Week 7, Chapters 13-14

Destiny isn't just revealed in your natural gifts and abilities. It is also revealed in the compensatory skills you have to work extra hard to develop.

Question: Describe a skill that you had to develop in your life that wasn't a natural. How has God used that gift in your life?

Difficult circumstances in life will often give you two choices. Complain about them, or you can make the most of them. Sometimes God uses those circumstances to change.

Give an example of a circumstance that was difficult for you to face, yet the Lord used that circumstance to help you become the man he called you to be.

Read Eccl. 11:4

Question: Is there a dream in your life that hasn't happened? Are you waiting for that perfect condition to play out or is it simply a lack of faith?

Read Acts 19:11-20

Great faith is sometimes measured in dollars.

Give an example of what you had to invest in a dream monetarily and how God used it to promote your dream.

Benaiah had one moment that changed his life. He killed only one lion. But later he killed two Moabites, lion-like. One decision changed his life.

Give an example of one moment that changed your life. How did that impact the destiny in your life?
